

SHEM OKEBIRO

Website Designer | Full-Stack Developer | Computer Science Student

Kenya • shemokebiro533@gmail.com • +254 114 474 606 • github.com/shemokebiro533-oss

PROFESSIONAL SUMMARY

Creative and highly motivated Website Designer and Full-Stack Developer with extensive hands-on experience designing, developing, and maintaining modern, responsive, and user-focused websites and web applications. Currently a third-year Bachelor of Science in Computer Science student at Karatina University, combining academic knowledge with practical experience in developing full-stack systems, e-commerce platforms, management systems, dashboards, and innovative digital solutions.

Experienced in Python, Django, HTML, CSS, JavaScript, SQL, Git, and responsive web development, with practical knowledge of frontend design, backend development, database management, authentication, API integration, debugging, and software development workflows. Passionate about using technology to solve real-world problems and developing reliable, scalable, and user-friendly digital solutions.

CORE TECHNICAL SKILLS

Frontend Development	HTML5, CSS3, JavaScript, Responsive Web Design, Mobile-First Development, UI/UX Design, Interactive Web Interfaces, Cross-Browser Compatibility
Backend Development	Python, Django, Django REST Framework, REST APIs, User Authentication & Authorization, CRUD Applications, Database-Driven Applications, Backend Architecture, Form Validation, Session Management
Databases	SQLite, MySQL, PostgreSQL, Database Design, Database Relationships, SQL
Development Tools	Git, GitHub, Visual Studio Code, PyCharm, Linux, Windows, Command Line, Python Virtual Environments
Additional Skills	API Integration, Debugging & Troubleshooting, Software Testing, Version Control, Deployment, Technical Documentation, System Design, Problem Solving

PROFESSIONAL EXPERIENCE

Website Designer & Full-Stack Developer

Freelance / Independent Developer — Kenya

- Design and develop responsive websites and web applications for different users, businesses, and organizations.
- Develop complete full-stack applications combining modern frontend interfaces with functional backend systems.
- Build Django applications with authentication, databases, dashboards, forms, and administrative functionality.
- Create modern and user-friendly interfaces with a strong focus on responsiveness and usability.
- Develop e-commerce platforms with product management, shopping carts, orders, user accounts, and business functionality.
- Design and implement database-driven applications.
- Develop custom dashboards for managing users, products, farms, projects, and application data.
- Implement authentication and authorization systems.
- Use Git and GitHub for source-code management and version control.
- Diagnose and resolve programming, database, dependency, routing, and deployment issues.
- Continuously learn and apply modern web development technologies and practices.

SELECTED PROJECTS

Mkulima Track — Smart Agriculture Platform

Technologies: Python, Django, HTML, CSS, JavaScript, SQL • Role: Full-Stack Developer

A smart agriculture platform designed to help farmers make informed decisions and manage their farming activities more effectively.

- Crop recommendations based on seasons and farming conditions
- Weather information and forecasting
- Farm management
- Farmer location and agricultural information
- Livestock management
- Veterinary service support
- Early livestock disease warnings
- Farmer dashboards and agricultural recommendations

Shoebay — E-Commerce Platform

Technologies: Python, Django, HTML, CSS, JavaScript, SQL • Role: Full-Stack Developer

A modern e-commerce platform designed to provide users with an online shopping experience for footwear.

- Product catalogue and product management
- Shopping cart and order management
- User accounts
- Responsive interface
- Administrative management

Maziwave — Dairy Marketplace

Technologies: Python, Django, HTML, CSS, JavaScript, SQL • Role: Full-Stack Developer

A digital dairy marketplace concept designed to connect farmers with retailers and consumers. The platform supports different purchasing models, allowing farmers to list dairy products while retailers and consumers can purchase products according to their requirements.

ShemPro — Developer Portfolio

Technologies: Python, Django, HTML, CSS, JavaScript • Role: Full-Stack Developer

A professional developer portfolio designed to showcase technical skills, projects, services, GitHub repositories, and professional profiles.

- Project showcase and developer profile
- Services section
- GitHub projects and social profile links
- Responsive design with a Django backend

EDUCATION

Bachelor of Science in Computer Science

Karatina University — Kenya • Current Level: Third Year

Relevant coursework: Programming, Data Structures & Algorithms, Database Systems, Web Development, Software Engineering, Computer Networks, Operating Systems, Object-Oriented Programming, Computer Architecture, Systems Analysis & Design.

TECHNICAL PROFICIENCY

Technology	Proficiency
HTML5	Advanced
CSS3	Advanced
Python	Advanced
Django	Advanced
JavaScript	Intermediate–Advanced
SQL	Intermediate–Advanced
Git & GitHub	Intermediate–Advanced
UI/UX Design	Intermediate–Advanced
REST APIs	Intermediate
PostgreSQL	Intermediate
MySQL	Intermediate
Linux	Intermediate

PROFESSIONAL STRENGTHS

• Creative problem solving	• Analytical thinking	• Attention to detail	• Fast learner	• Independent project development	• Team collaboration
• Communication	• Debugging and troubleshooting	• Adaptability	• Software development	• Technical research	• Project management

AREAS OF INTEREST

Full-Stack Web Development • Software Engineering • Django Development • Web Application Development • UI/UX Design • E-Commerce Development • Agricultural Technology • Business Management Systems • Database Development • Artificial Intelligence • Emerging Technologies

CAREER OBJECTIVE

To build a successful career as a Full-Stack Developer and Software Engineer, developing secure, scalable, innovative, and user-friendly digital solutions while continuously expanding my technical expertise and contributing to impactful technology projects.
